

# SASOLBURG OPERATIONS

Emergency Management  
Training Academy

**SASOL**

# Introduction

Sasolburg Operations, Emergency Management Training (EMT) reported to the Emergency Services until 2008 running as a full accredited training center registered with SAESI and was facilitating a large selection of courses.

From 2008 with restructuring within the company EMT was moved to the Safety Department and still presented the same courses.

After another restructuring process in 2010 EMT reported to HR Learning. a Decision was made to halt all accredited courses and only present internal site specific training.

As of the 1<sup>st</sup> January 2019 EMT reports back to the Emergency Management. Although the current curriculum for internal training will continue the vision is to get the center re-accredited and start presenting fire related courses again.
