

Incident Learning: COVID-19 Positive Test Result

A permanent employee has tested positive for COVID-19. Employee reported to the company Clinic as a close contact of a confirmed case last week Thursday (02 July) outside work incident.

Contact tracing have been activated. Close contacts will be required to self-quarantine and sent for testing.

Shared facilities have been disinfected. Additional precautions to use surgical mask for all people working in that area. Investigation in progress.

Learning:

Went well:

- Employee reporting incident
- Isolation of employees.
- Timeous Contact tracing
- Social distancing.
- Authorities informed. DOH, DoL and NICD

Improvements:

- Staff rotation to minimise staff numbers at any one time
- Assurance on employee use of masks by line managers
