

GI WACAF Webinar Series

Webinar #3

Oil spill contingency planning, perspectives from the private sector and national authorities

September 2020

Julien Favier
GI WACAF Project Manager

The Global Initiative for West, Central and Southern Africa

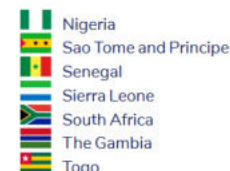

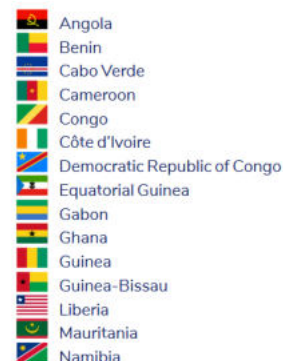

- **Launch of the Project in 2006** in the framework of the Global Initiative (GI) launched in 1996

ipieca

- Cooperation with the oil and gas sector in line with the OPRC 90 convention
- **Objective:** enhance the capacity of 22 partner countries to prepare for and respond to oil spills, so that they can better protect their marine and coastal environment
- **Technical assistance:**
 - National or sub-regional workshops,
 - Trainings (tailored to the needs),
 - Exercises (table-top and deployment),
 - Biennial conferences

Countries covered by the GI WACAF Project

In a nutshell

Encourages partner countries **to ratify and implement international conventions** from IMO and other UN bodies.

A **joint endeavour** of the public and private sectors to manage oil spill risks and mitigate associated impacts.

Supports **22 African partner countries** in the development and implementation of sub-regional and national **oil spill preparedness and response systems**.

Maintains a constant liaison with partner countries and the industry to **provide tailored capacity-building solutions**.

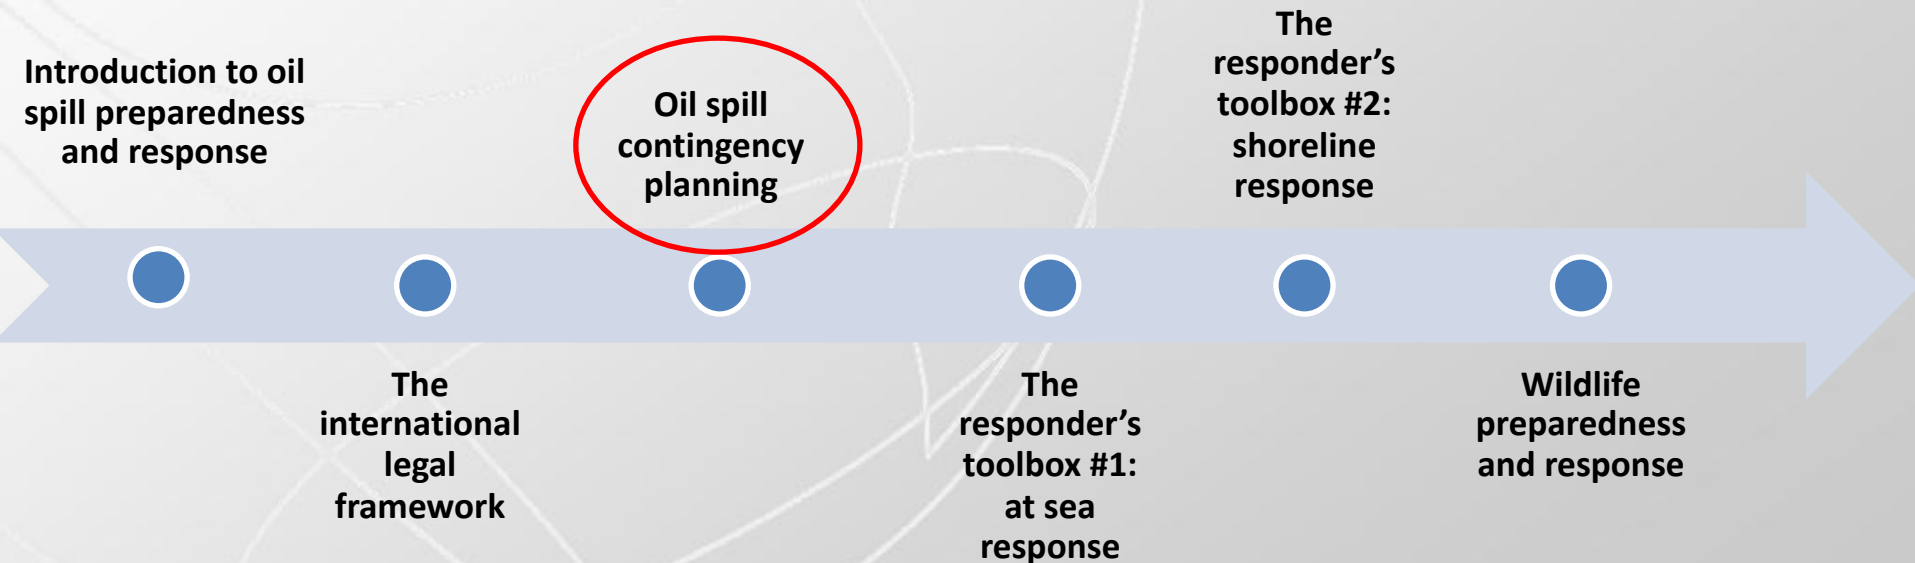

Organizes **workshops, training courses and exercises**.

Encourages **better communication and collaboration** between governments and industry.

GI WACAF webinar series

A series of webinars covering the various dimensions of oil spill preparedness and response (technical, legal, institutional)

Webinar #3

Oil spill contingency planning, perspectives from the private sector and national authorities

Objectives

1. Present the key aspects of contingency planning in preparedness and response to oil spills, using different perspectives and points of view (regulator, oil&gas industry);
2. Present the tools and processes used when planning for oil spills;
3. Discuss the role and responsibilities of the different stakeholders involved in oil spill contingency planning; and
4. Show that oil spill response is at the crossroads of disaster risk management and protection of the marine environment .

Presenting experts

1. **Richard Tindell**, Principal Consultant, OSRL - *Introduction to oil spill contingency planning*

2. **Capt. Ravi Naicker**, Senior Manager: navigation, security & environment, SAMSA – *South African NOSCP & Case Study*

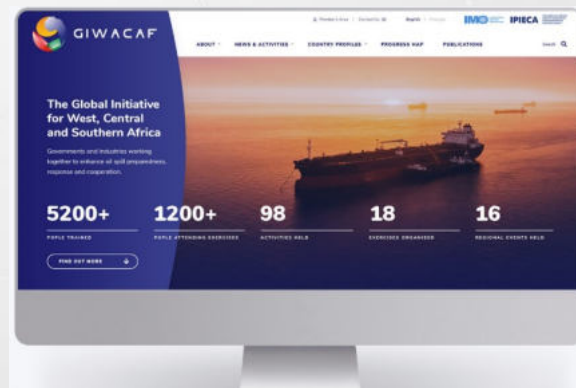

3. **Tania Augusto**, Senior Advisor, ExxonMobil Angola – *Oil Spill Planning in the Oil and Gas industry in Angola*
